DETAILED ACTION

Allowable Subject Matter

Claims 13-20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose either singly or in combination an optically clocked optoelectronic track and hold apparatus comprising a short transit time photodiode and a long transit time photodiode in a parallel configuration regarding claim (13), a method for optically clocked optoelectronic tracking and holding comprising the steps of maintaining a diode bridge in forward bias and returning to STEP(a) if an optical pulse is not received from an optical input clocking signal, switching the diode bridge to reverse bias for a desired time, and returning to STEP(a) if the optical pulse is received from the optical input clocking signal regarding claim (15), and an optically clocked optoelectronic track and hold apparatus comprising means for maintaining a diode bridge in forward bias if an optical pulse is not received from an optical input clocking signal and means for switching the diode bridge to reverse bias for a desired time if an optical pulse is received from an input clocking signal regarding claim (20).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Don Williams whose telephone number is 571-272-8538. The examiner can normally be reached on 8:30a.m. to 5:30p.m..
